Hello!

I'm **Khalid Zarook**, a digital-first designer in Doha, ready for my next challenge.

My goal is to be a creative partner for brands, helping them connect with their audience through compelling design and video. With 4+ years of experience, I've delivered results for clients ranging from large universities to fast-paced restaurants and e-commerce stores.

What I Do Best:

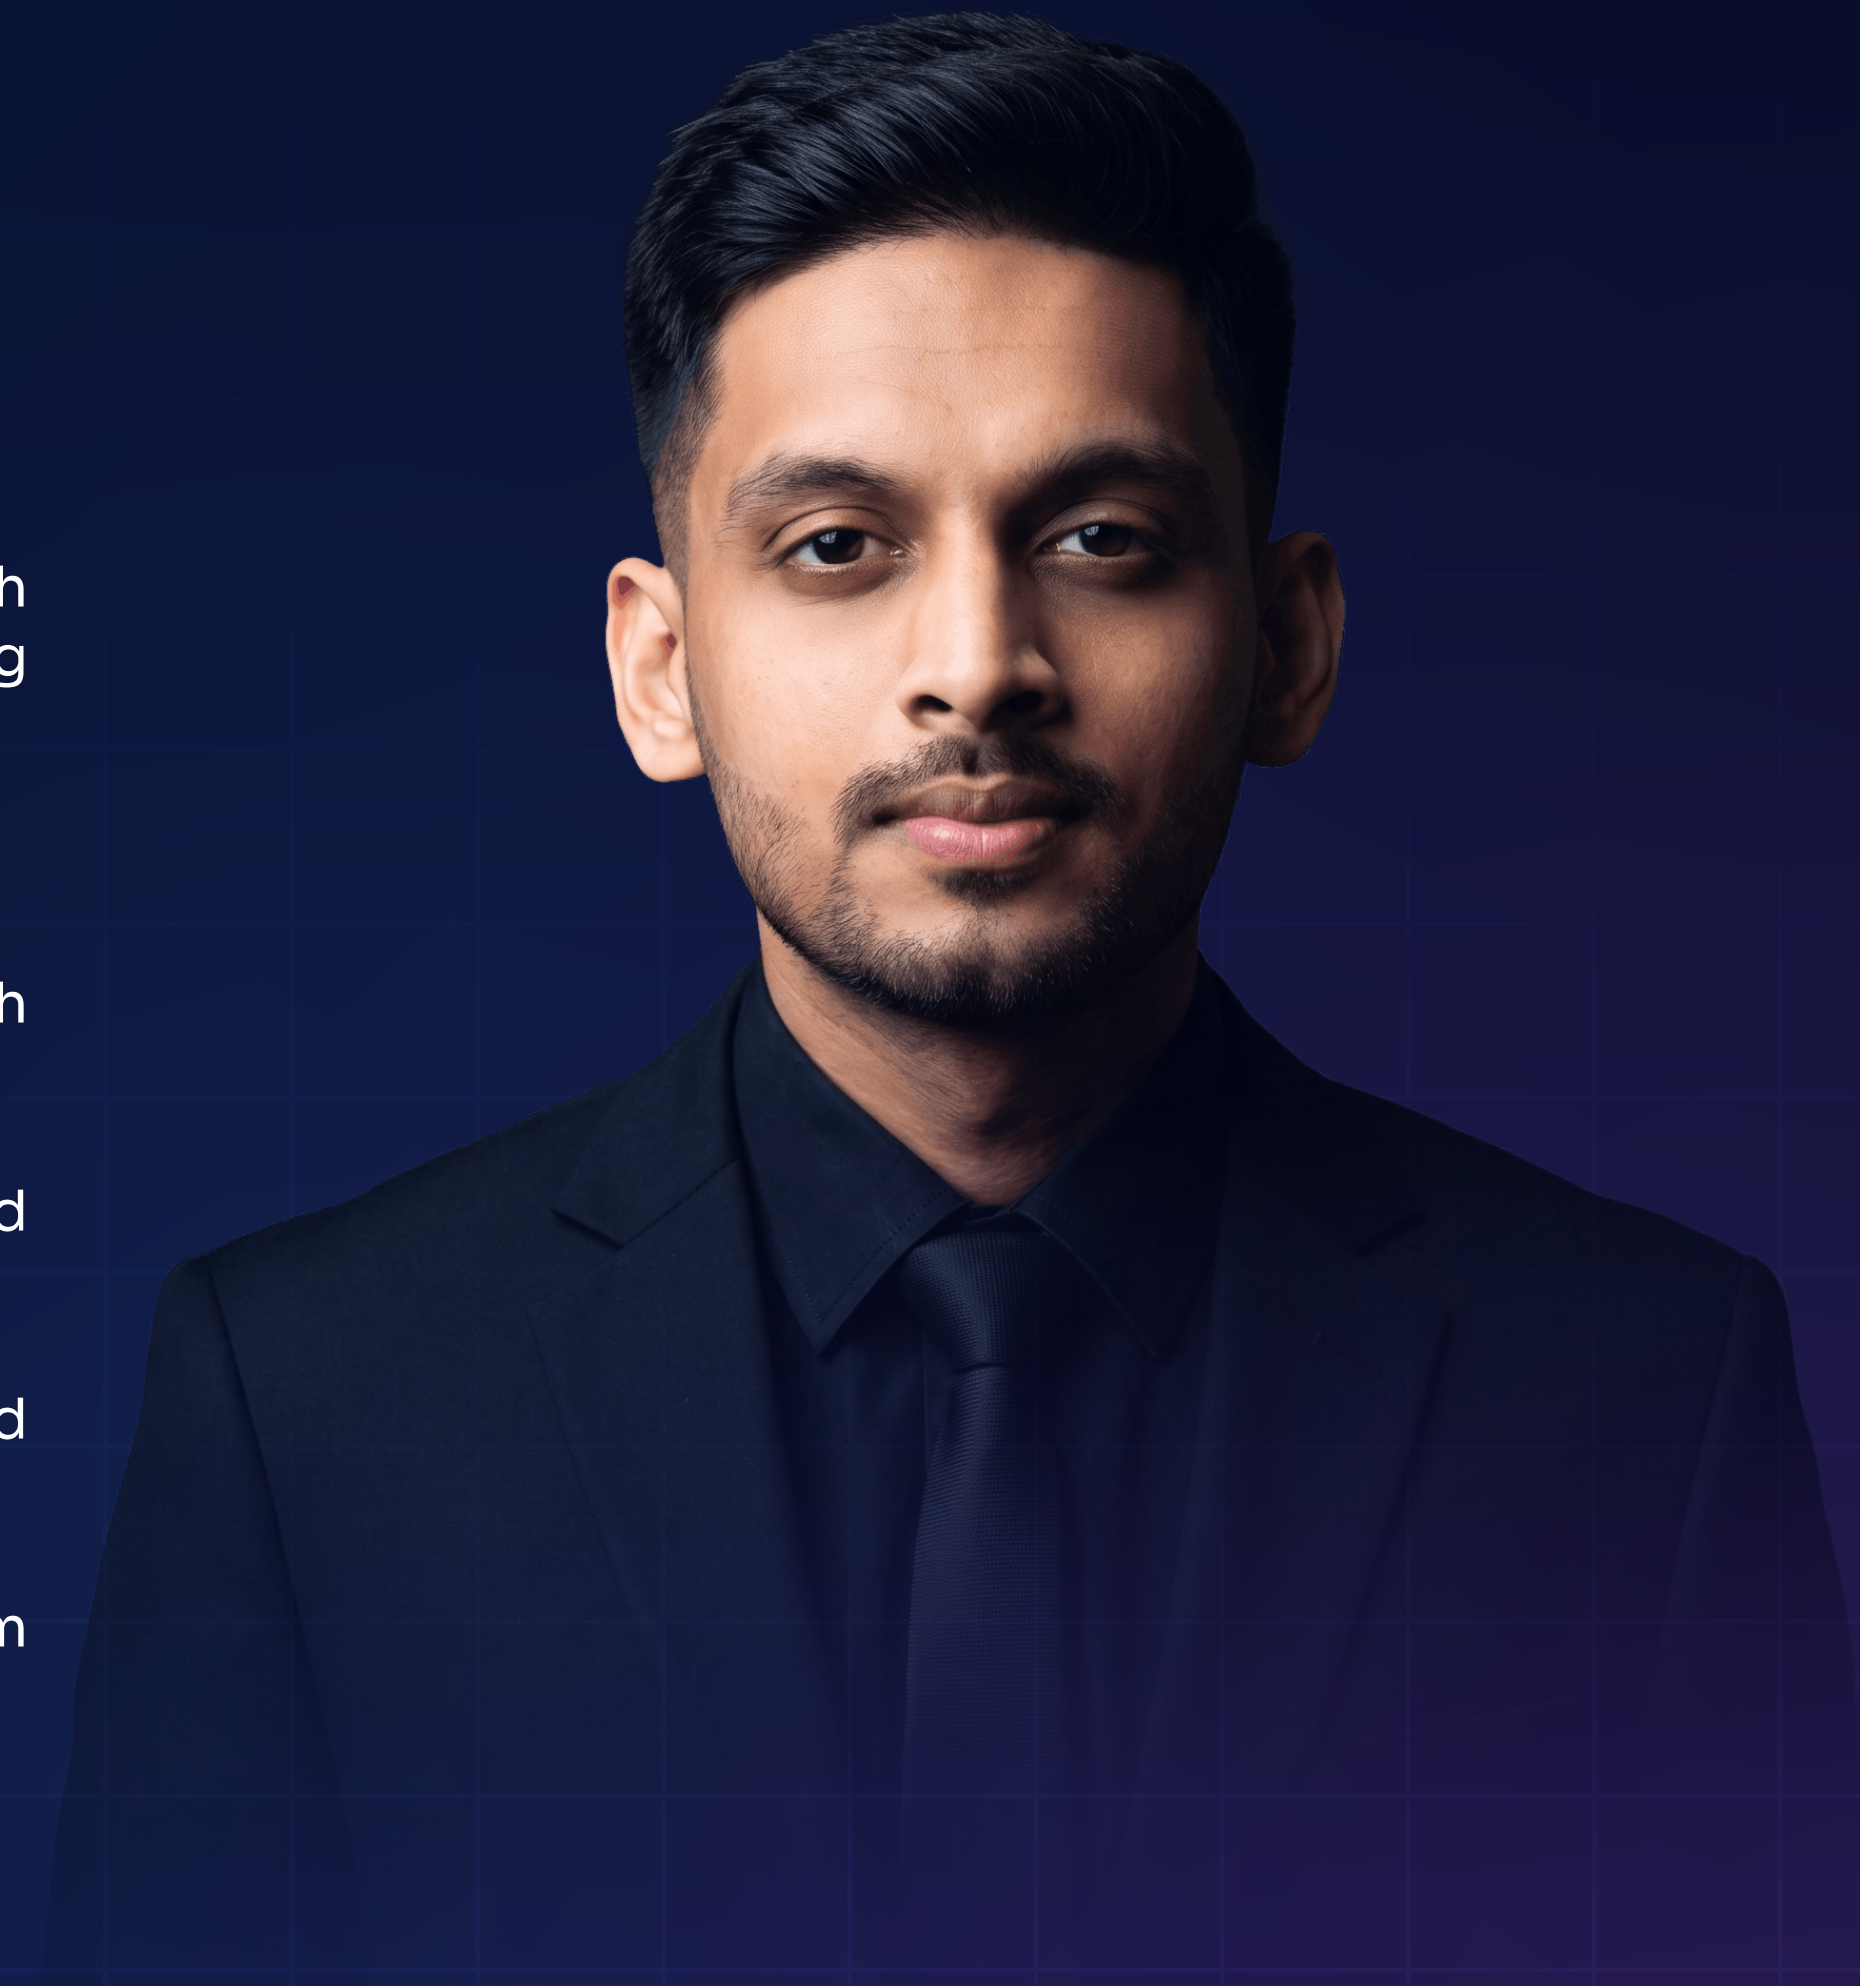

Bilingual Branding: Designing complete identities (logos, guidelines, collateral) that speak to both English and Arabic audiences, often featuring my own custom calligraphy.

Social-First Video: Producing and editing high-engagement content for Instagram, TikTok, and YouTube using Premiere Pro, After Effects, and CapCut.

Web & UI Design: Building clean, conversion-focused websites in WordPress (Elementor) and prototyping user-friendly experiences in Figma.

I thrive in fast-paced environments, manage multiple projects with a keen eye for detail, and am passionate about producing clean, modern work that is relevant and effective in the GCC market.

Status: Based in Doha, Valid QID & NOC, available to join immediately.

My Resume
